## Rent-to-Buy Programs

Summit Technology designs, manufactures, rents, and sells its power analyzers.

Sometimes customers need to try out the product before deciding to buy and sometimes it is advantageous to make payments for a new system over several months without using a financing arrangement. Summit Technology has programs for both of these needs.

### Apply First Month to Purchase

If you decide to purchase the system that you are renting, you can apply up to the first full month rental that you've already paid (1 month maximum) towards its purchase price. This way you can know you are making a great choice before you make your final purchase decision.

If you wish to buy a new system while you are renting a system, you can apply up to the first full month rental that you've paid for your rental system towards the purchase of the new system.

**Please Note: Your purchase decision must be made and arranged with us before returning the rental system.**

**Please Note: Rental of non-system products cannot be applied towards the purchase price of a system.** For example, if you rented an extra current probe or an LDC4 accessory, the rent for that probe would not be applied towards a purchase.

### Rent-to-Buy

If you wish to rent a system for several months and then either own it or a new system, that goal can be accommodated.

**Please Note: The rent-to-buy arrangement must be made prior to you receiving the rental.**

To rent-to-buy a system, you need to make prior arrangement with our Sales department. After a pre-arranged number of months of making timely payments, notify our Sales Department that you wish to keep the system and we will transfer ownership to you.

- To keep a system that includes a PS4550 or PS4500, make timely payments for 10 months in a row. If you wish to return the rental and get a brand new system, make timely payments for 11 months.
- To keep a system that includes a PS3550 or PS3500, make timely payments for 8 months in a row. If you wish to return the rental and get a brand new system, make timely payments for 9 months.

To rent-to-buy an accessory, make prior arrangement with the Sales Department and then after making timely payments 8 months in a row, notify the Sales Department and we will transfer ownership to you.

**Please Note: In all cases, the warranty for the product will be set for 1 year from the time of transfer of ownership.**
